

“Nothing compares to a fresh wind over the treetops.”

Rudi loves to do precision work with a chainsaw at dizzying heights. For him, the most exciting part of building a treetop path is the moment that the bridge is put on supports, bit by bit. The connecting piece can only be cut on-site – 25 metres above the ground, requiring a calm hand and absolute concentration.

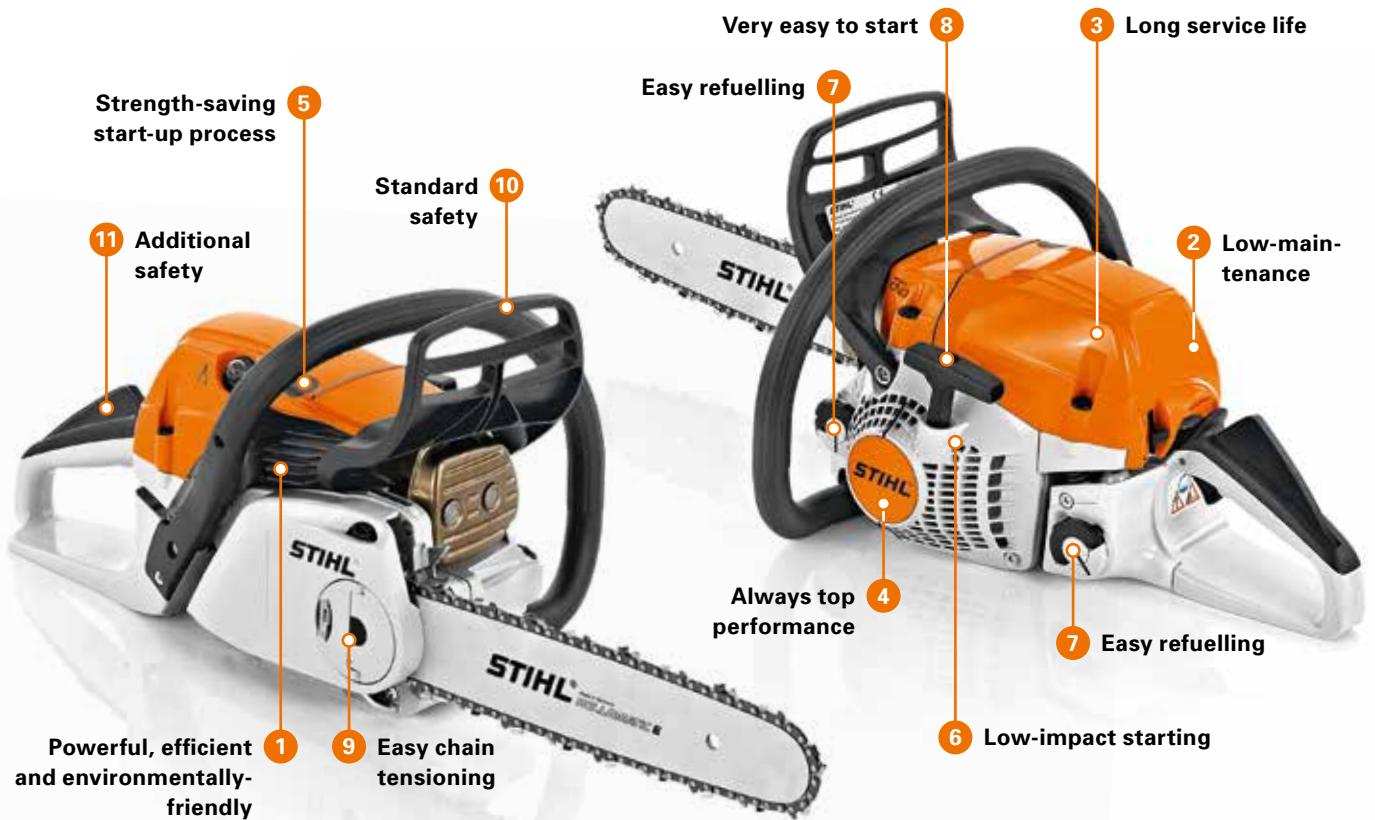

Once all the underfoot bars have been laid, the edge is "Smoothed out" using the saw.

The high point of the path is the viewing platform, which is at a level of 42 m.

Technology

- 1 STIHL 2-MIX engine**
The two-stroke engine with STIHL 2-MIX technology saves up to 20 % of fuel and reduces emissions by up to 70 % compared to STIHL 2-stroke engines of the same performance class without 2-MIX technology.
- 2 Long-life air filter system with air routing**
Compared with conventional air filter systems, the service life of the filter is significantly increased.
- 3 HD2 filter**
This air filter keeps even the finest dust away from the engine, ensuring a particularly long service life. Thanks to its special material, the filter can easily be cleaned by washing, for example with STIHL Varioclean and warm water.
- 4 STIHL M-Tronic (M)**
For a cold start, the STIHL M-Tronic only needs one start position on the combi-lever. After starting, you can immediately power up to full speed. The system precisely calculates the amount of fuel needed and supplies it in line with requirements. Otherwise, start in position I as usual.

Comfort

- 5 Decompression valve**
Reduces the necessary starting power, making it easier to start the chainsaw.
- 6 STIHL ElastoStart**
This special shock absorber grip with damper ensures jerk-free starting without load peaks.
- 7 Tool-free fuel caps**
Special caps to open and close the tank cap quickly, easily and without tools.
- 8 STIHL Easy2Start (E)**
A spring between the starter cord reel and crankshaft relieves the strain when starting, meaning that excessive pulling on the cord is no longer needed. The result is a convenient starting procedure with practically no effort.
- 9 STIHL Quick Chain Tensioning (B)**
With STIHL Quick Chain Tensioning, it's easy to adjust the saw chain, without tools and without coming into contact with the sharp saw chain itself. Just release the sprocket cover and turn the adjusting wheel to set the optimum tension.

Safety

- 10 Front hand guard with STIHL QuickStop**
By moving the front hand guard, the chain brake is manually activated and blocks the saw chain. If there is enough kickback, the chain brake is triggered automatically. The saw chain comes to a standstill within a fraction of a second.
- 11 STIHL QuickStop Super (Q)**
The additional braking system for extra safety – exclusive to STIHL. The saw chain stops whenever there is a sufficiently strong kickback, the front hand guard (10) is activated, or the user lets go of the rear handle. The saw chain is stopped within seconds, protecting the user.

Please note that not all products are equipped with the features listed here. Only the most important features are described on this page. For further explanations and information, see page 240 onwards or online at www.stihl.com.au.

Petrol chainsaws for cutting firewood and grounds maintenance

-  For occasional users and craftsmen
-  Excellent for cutting firewood
-  For grounds maintenance
-  For felling small trees
-  For building with wood

MS 170

30.1 cm³, 1.3 kW/1.6 hp, 3.9 kg[Ⓣ]. Entry-level model for cutting firewood. Easy to use thanks to combi-lever.

Bar length	Order No.
35 cm / 14"	1130 200 0335

MS 171

31.8 cm³, 1.3 kW/1.8 hp, 4.3 kg[Ⓣ]. Modern chainsaw for grounds maintenance. Side-mounted chain tensioning for safe and easy chain tensioning, long-life air filter system prevents the air filter from prematurely clogging, economical 2-MIX engine.

Bar length	Order No.
35 cm / 14"	1139 200 0209

MS 180

31.8 cm³, 1.4 kW/1.9 hp, 4.1 kg[Ⓣ]. Entry-level model for cutting firewood, with more power and side-mounted chain tensioning for quick and safe chain tensioning. 35 cm version for cutting thicker branches.

Bar length	Order No.
40 cm / 16"	1130 200 0444

Recommended bar length: lines in bold in the order information show you the bar lengths that are recommended for each chainsaw.

[Ⓣ] Weight excluding fuel, guide bar and saw chain

Chainsaws and pole pruners

2

MS 181

31.8 cm³, 1.5 kW/2.0 hp, 4.3 kg[Ⓞ]. Same features as the MS 171, but with higher performance. Great for cutting firewood. 35 cm version is also suitable for felling small trees. Metal stop claws to easily and precisely guide the saw into the cut.

Bar length	Order No.
40 cm / 16"	1139 200 0189

➤ See the table on page 50 for further versions.

MS 231

42.6 cm³, 2.0 kW/2.7 hp, 4.8 kg[Ⓞ]. Great for cutting firewood. Side-mounted chain tensioning for safe and easy chain tensioning, long-life air filter system for long cleaning intervals, tool-free fuel caps for safe and easy refuelling, economical 2-MIX engine.

Bar length	Order No.
40 cm / 16"	1143 200 0292

MS 211

35.2 cm³, 1.7 kW/2.3 hp, 4.3 kg[Ⓞ]. Good for cutting firewood. Side-mounted chain tensioning, fuel-efficient 2-MIX engine, switch between summer and winter mode for optimum running performance in all conditions, ³/₈" PM3 saw chain for good cutting performance.

Bar length	Order No.
40 cm / 16"	1139 200 0262

MS 251

45.6 cm³, 2.2 kW/3.0 hp, 4.8 kg[Ⓞ]. Suitable for harvesting firewood in the forest. Side-mounted chain tensioning, rugged and durable .325" cutting attachment, optionally available with 40 cm bar length for cutting thicker tree trunks, economical 2-MIX engine.

Bar length	Order No.
45 cm / 18"	1143 200 0252

STIHL professional tip:

If you won't be using your STIHL chainsaw for a while, it's best to do empty the fuel from the fuel tank into an approved container. Then let the chainsaw run until it stops by itself and there is no more fuel in the fuel system. Remove the saw chain and guide bar, and clean the cutting attachment with STIHL Varioclean to prevent it from gumming. Fill up the chain lubricant. Store your chainsaw in a dry environment and protect it from the sun. Keep it free from dust by storing it in a bag or STIHL chainsaw case. Make sure it is safe from unwanted access (e.g. by children).

Petrol chainsaws for agriculture /the construction industry and horticulture

-  For farmers, landscapers and craftsmen
-  For landscape maintenance and cutting firewood and timber

MS 291

55.5 cm³, 2.8 kW/3.8 hp, 5.6 kg[Ⓞ]. Great for harvesting firewood. Economical 2-MIX engine, long-life air filter system ensures a long filter life, tool-free fuel caps for safe and easy refuelling, ³/₈" RM3 saw chain for great cutting performance.

Bar length	Order No.
45 cm / 18"	1141 200 0261

 **NEW** See the table on page 50 for further versions.

MS 311

59.0 cm³, 3.1 kW/4.2 hp, 6.2 kg[Ⓞ]. For felling firewood in medium-density stands. With long-life air filter system for a very long filter service life, economical 2-MIX engine, decompression valve for effortless starting.

Bar length	Order No.
50 cm / 20"	1140 200 0229

MS 391

64.1 cm³, 3.3 kW/4.5 hp, 6.2 kg[Ⓞ]. Excellent for felling firewood and building with wood. With long-life air filter system for a long filter service life, economical 2-MIX engine, and decompression valve for effortless starting. Decompression valve for effortless starting.

Bar length	Order No.
50 cm / 20"	1140 200 0230

For suitable fuels and lubricants, see page 188 onwards.

Petrol chainsaws for forestry

- Powerful, enduring and responsive
- Designed to overcome any professional challenge
- For all forestry, felling, branch trimming and bucking jobs
- High performance, low weight and superb comfort and convenience
- Many models are fitted with M-Tronic as standard

MS 241 C-M

42.6 cm³, 2.3 kW/3.1 hp, 4.5 kg^①. Excellent for harvesting thin wood, with more powerful engine performance at a low weight. Standard-fitted with M-Tronic, long-life air filter system with HD2 filter requires only occasional cleaning, captive nut on the sprocket cover, economical 2-MIX engine, ³/₈" PS saw chain for very high cutting performance.

Bar length	Order No.
40 cm / 16"	1143 200 0269

A "C" comfort feature in the product name:

Many STIHL tools are standard-fitted with special comfort features, which can be identified by the "C" in the product name, e.g. MS 211 C-BE. The "E" stands for the STIHL Easy2Start, and the "B" for Quick Chain Tensioning.

STIHL professional tip:

Thanks to the stop button function on the STIHL M-Tronic, after the tool is turned off, the control lever immediately moves back into the operating position. This allows a warm machine to be restarted immediately.

MS 261 C-M

50.2 cm³, 3.0 kW/4.1 hp, 4.9 kg[Ⓛ]. Great for working in low-density and medium-density stands. Standard-fitted with M-Tronic, ensuring optimum engine performance at all times, easy starting thanks to one start position and a new stop button function, long-life air filter system with HD2 filter requires only occasional cleaning, captive nuts on the sprocket cover.

Bar length	Order No.
40 cm / 16"	1141 200 0325

➤ See the table on page 50 for further versions.

MS 362 C-M

59.0 cm³, 3.5 kW/4.8 hp, 5.6 kg[Ⓛ]. Great for working in medium-density stands. Long-life air filter system with HD2 filter ensures an excellent filtering effect, M-Tronic for optimum engine performance at all times and easy starting thanks to one start position and stop button function, captive nuts on the sprocket cover for quick and easy chain replacement, economical 2-MIX engine.

Bar length	Order No.
50 cm / 20"	1140 200 0233

Tuning kit MS 261 – Picco Super

Top performance

Conversion kit for a faster cutting attachment (40 cm) for the MS 261. Ideal for harvesting pinewood. Contains: 1 guide bar, 3 saw chains and 1 rim sprocket, 20 % more cutting power than with the Rapid Super attachment, with sprocket also suitable for the MS 260.

Order No. 0000 007 1900

MS 381

72.2 cm³, 3.9 kW/5.3 hp, 6.6 kg[Ⓛ]. For very heavy duty use on a wide variety of commercial or farming jobs. Decompression and ElastoStart handle on pull cord for easier starting.

Bar length	Order No.
50 cm / 20"	1119 200 0115

Chainsaws and pole pruners

2

MS 461

76.5 cm³, 4.4 kW/6.0 hp, 6.7 kg[Ⓞ]. High-power chainsaw for medium-density to high-density stands. With economical 2-MIX engine, HD2 filter with good filtering effect, tool-free fuel caps for safe and easy refuelling, raised felling bar for easy control of the direction of the fall.

Bar length	Order No.
50 cm / 20"	1128 200 0433

MS 661 C-M Magnum[®]

91.1 cm³, 5.4 kW/7.3 hp, 7.4 kg[Ⓞ]. The competition chainsaw used in the STIHL[®] TIMBERSPORTS[®] SERIES.

Big timber saw for the toughest jobs in forestry. M-Tronic guarantees optimum engine performance at all times and easy starting thanks to one start position and stop button function, controlled-delivery high-performance oil pump for high flow rate, HD2 filter with very good filtering effect, economical 2-MIX engine.

Bar length	Order No.
63 cm / 25"	1144 200 0036

MS 880 Magnum[®]

121.6 cm³, 6.4 kW/8.7 hp, 10.0 kg[Ⓞ]. The most powerful series-produced chainsaw in the world. Decompression valve and STIHL ElastoStart ensure an effortless chainsaw start, HD2 filter guarantees a long filter life, tool-free fuel cap for safe and easy refuelling.

Bar length	Order No.
63 cm / 25"	1124 200 0133
75 cm / 30"	1124 200 0132
80 cm / 31"	1124 200 0131

Chainsaw with carbide saw chain

- For occasional as well as professional users
- Carbide-tipped saw chains that stay sharp up to ten times longer
- Particularly well-suited for dirty wood

① Weight excluding fuel, guide bar or saw chain

② Specially designed for working among tree branches and should only be used by trained arborists

MS 201 TC-M with Picco Duro 3

35.2 cm³, 1.8 kW/2.4 hp, 3.7 kg^①. The most powerful STIHL arborist saw^②. Standard-fitted with M-Tronic for optimal engine performance right from the word go, economical 2-MIX engine, captive nut on the sprocket cover, lightweight guide bar reduces the total weight.

Bar length	Order No.
30 cm / 12"	1145 200 0195

2

STIHL professional tip:

The Duro name stands for our carbide saw chains. These were designed for cutting dirty wood, and stay sharp up to ten times longer than conventional saw chains, even with occasional ground contact.

Stays sharp up to ten times longer than conventional saw chains.

More on page 59.

Arborist saws

- Lightweight special chainsaws
- For cutting branches and crown reduction
- With precise handling
- Optimum ergonomics
- Battery chainsaw for use in noise-sensitive areas

MS 150 TC-E

23.6 cm³, 1.0 kW/1.3 hp, 2.6 kg^①. STIHL's lightest arborist saw^②. Manual fuel pump and STIHL Easy2Start guarantee easy starting, standard-fitted with 1/4" PM3 saw chain for a fine cut.

Bar length	Order No.
30 cm / 12"	1146 200 0004

MS 193 T

30.1 cm³, 1.3 kW/1.8 hp, 3.3 kg^①. STIHL's universal arborist saw^②. Economical 2-MIX engine, captive nut on the sprocket cover, 3/8" P saw chain for a fine cut.

Bar length	Order No.
30 cm / 12"	1137 200 0224

MS 201 TC-M

35.2 cm³, 1.8 kW/2.4 hp, 3.7 kg^①. The most powerful STIHL arborist saw^②. Standard-fitted with M-Tronic for optimum engine performance right from the word go, economical 2-MIX engine, captive nut on the sprocket cover, lightweight guide bar reduces the total weight.

Bar length	Order No.
30 cm / 12" ^③	1145 200 0180

MSA 160 T

Very lightweight, professional battery arborist saw^② for use in noise-sensitive areas. High cutting performance thanks to the 1/4" PM3 saw chain, captive nut on the sprocket cover. Weight: 2.3 kg^①.

MSA 160 T with guide bar and saw chain

Bar length	Order No.
30 cm / 12"	1252 200 0000

^① Weight excluding fuel, guide bar or saw chain

^② Specially designed for working among tree branches and should only be used by trained arborists

Emergency services saws

- For emergency operations and fire fighting
- Special saw chain with carbide alloy plating
- Tremendous performance in the medium rpm range

MS 461 Rescue

76.5 cm³, 4.4 kW/6.0 hp, 7.2 kg[ⓐ]. For emergency operations and fire fighting. Additional handle for quick and easy adjustment of the cutting depth, large starter grip and decompression valve for safe and easy chainsaw starting, special saw chain plated with impact-resistant carbide plates.

Bar length	Order No.
50 cm	1128 200 0452

2

STIHL professional tip:

Unlike ordinary chainsaws, special emergency services saws are usually used for plunge cutting. This means the front bar nose is immersed in the cutting material. The cutting depth limiter allows you to precisely define the desired cutting depth.

Mini Mill

The Mini Mill converts logs into timber or smooth lumber, comes complete with 12' of aluminium guide rail in 2' lengths, with screws.

Order No. 7004 871 0071

Alaskan Mill

The Alaskan Mill is the advanced design lumber mill for versatile, heavy-duty use. It allows timber to be milled on-site from fallen trees or logs. Converts rough logs into perfectly-dimensioned timber with a beautiful, even, re-sawn finish.

76 cm/30"
Order No. 7004 871 0072

90 cm/35"
Order No. 7004 871 0073

STIHL professional tip:

In addition to the felling bar which STIHL chainsaws have running as a bearing line over the fan housing, hood and sprocket cover, the laser beam projected onto the ground allows even more efficient control over the direction of the fall. You can also use the 2-in-1 laser as a time-saving cutting guide when cutting firewood.

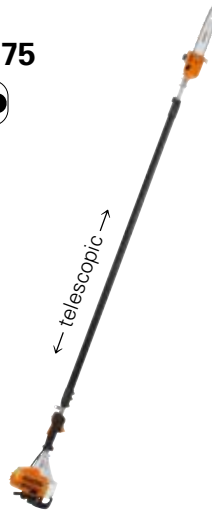

2

Pole pruners and accessories

- Available as a petrol, batter-powered or electrical device
- For thinning out shrubs
- For cutting tall fruit trees
- Range of up to five metres
- Harness for effortless work

HT 75

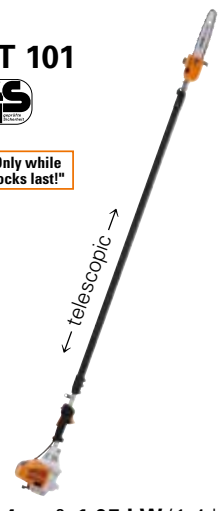

25.4 cm³, 0.95 kW/1.3 hp, 7.3 kg^⓪. With the STIHL HT 75 pole pruner, branches up to a height of approx. 5 m can be cut.

Order No. 4138 200 0027

HT 101

"Only while stocks last!"

31.4 cm³, 1.05 kW/1.4 hp, 7.6 kg^⓪. Professional pole pruner for fruit growers and arborists. Particularly precise biting characteristics thanks to special $\frac{3}{8}$ " P PMM3 saw chain, 4-MIX[®] engine, STIHL anti-vibration system, automatic decompression, telescopic shaft, total length 270 – 390 cm.

Order No. 4182 200 0095

New range Pole pruners will be introduced when current run out models are sold out.

STIHL professional tip:

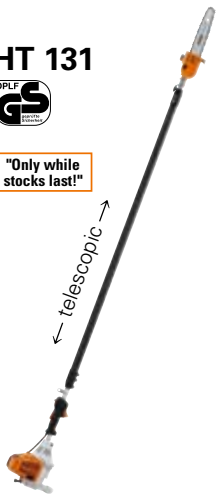

The reduced weight of the transmission and telescopic shaft in the petrol hold pruners ensures noticeably easier work. The telescopic shaft with square-cut profile features maximum steadiness for a precise cut at significant heights. Equipped with the $\frac{1}{4}$ " PM3 saw chain, STIHL poll pruners are ideal for arborist work.

For suitable fuels and lubricants, see page 188 onwards.

HT 131

"Only while stocks last!"

36.3 cm³, 1.4 kW/1.9 hp, 7.8 kg^①. Particularly powerful cuts with the professional pole pruner for fruit growers and arborists. Lightweight guide bar, 4-MIX[®] engine, STIHL anti-vibration system, automatic decompression, telescopic shaft, total length 270 – 390 cm.

Order No. 4182 200 0096

For suitable lithium-ion batteries and other accessories, see page 8 onwards.

HTA 85

Lithium-Ion PRO

EC MOTOR

Battery pole pruner for fruit growers and professional arborists, with a telescopic shaft. Lightweight and powerful, with 1/4" PM3 saw chain for particularly precise biting characteristics and good cutting performance, low vibration and quiet for use in urban areas. With side-mounted chain tensioning and captive nut on the sprocket cover, total length 270 – 390 cm. Weight: 4.9 kg^②.

HTA 85 with guide bar and saw chain

Order No. 4857 200 0029

HTE 60

240 V, 1.45 kW, 5.1 kg^③.

The high-performance HTE 60 electric pole pruner can trim branches at a height of around 3.20 m. Also suitable for cutting back dense hedge growth, e.g. hornbeam, total length 210 cm.

Order No. 4810 200 0008

Bracket for telescopic shaft

NEW

For outstandingly ergonomic design in combination with a basic shoulder strap or the RTS harness. The tool is easy to attach and quick to release. Included in the scope of delivery with the HT 103 and HT 133. Suitable for the HT 75, HT 101, HT 131 and HTA 85.

Order No. 0000 790 8600

RTS harness

For prolonged use. Can be adjusted to the user's size, makes particularly effortless and ergonomic work possible. Can be used with the HT 101, HT 103, HT 131, HT 133, HTA 65, HTA 85, HTE 60, HT-KM, HL-KM 145°, HLA 65 and HLE 71.

Order No. 4182 790 4400

Angled gearhead

NEW

For HT 103 and HT 133.

Order No. 4182 640 0200

For HT 101, HT 131 and HTE 60.

Order No. 4138 640 0201

Foot

Foot to protect the battery from contact with the ground. Additional handle for short-term shaft extension, for HTA 65, HTA 85 and HLA 85. Included in the scope of delivery with the HT 103 and HT 133.

Order No. 4857 007 1001

① Weight excluding fuel, guide bar and saw chain

② Weight excluding battery, including guide bar and saw chain

③ Weight excluding cable and chain oil, including guide bar and saw chain
